DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim is incomprehensible and likely a result of a poor translation. Please review the claim language and make appropriate amendments.

Allowable Subject Matter

3. The following is a statement of reasons for the indication of allowable subject matter: Claims 1-6 and 8-14 are allowed over the closest reference, Ogane (DE 101 64 188). The present invention is drawn to a contact product comprising (a) a compound of formula M^1L^1 , (b) a compound of formula $R^1_{s-1}T^1H$, (c) a compound of formula $R^2_{t-2}T^2H_2$, and (d) a nonionic surfactant having no active hydrogen. A further aspect of the invention is a catalyst comprising said contact product and a process for producing polymer with said catalyst. Ogane discloses a contact product comprising components (a), (b), and (c). There is no teaching or suggestion of using a nonionic surfactant having no active hydrogen to make a contact product as per the instant claims. Claim 7 would be allowable pending appropriate amendments (*vide supra*).
